

## Wireless Touch Screen Keypad (Canadian French)

TS1-C

SKU: 23067    UPC: 817082000000

The Wireless Touch Screen Keypad (2GIG-TS1) is a wall-mounted, full-color, touch screen interface that provides many of the same easy-to-use keypad functions available on the control panel. It is designed for indoor use only and gives users the ability to control lights, thermostats, and door locks, as well as to view the status of every sensor zone.

When the 900 MHz Transceiver Module (2GIG-XCVR2-345) is installed in the GC2 control panel, the system can be programmed to communicate with up to four (4) Wireless Touch Screen Keypads.

### Features
