

Fire Fighter Listener-Transmitter

FF-345

SKU: 23034 UPC: 817082011967

FireFighter is the newest innovation from Encore Controls Inc. It is the easiest, most cost effective way to add smoke alarm monitoring to your 2GIG control panel. FireFighter's unique technology monitors the existing UL smoke detectors within the home. When an alarm is detected a wireless signal is sent to the control panel which in turn contacts the central monitoring station. With interconnected hardwired smoke detectors found in most homes today, only one FireFighter is needed to monitor ALL the smoke detectors within the home.

Features

- Monitors any UL existing smoke detector
- Does not impact UL or Fire Marshall approval of existing smoke detectors
- 100% compatible with 2GIG panels and Honeywell 5800 receivers
- Uses 1 CR123A long life lithium battery
- FCC IC and ETL listed in US and Canada to UL985 standard
