

8 CFM COMP-COOL-3 Expansion

COMP-COOL-E

SKU: 9713 UPC: 656747000000

Thermostatically controlled component cooler removes heat right at the source. Optimized for components on open shelving or in racks, this cooler turns on automatically when needed. The Component Cooler is placed directly on top of vents of heat generating equipment.

Features

- Additional cooler, connects to COMP-COOL-3
- Placed directly on hot system components to remove excessive heat
- Rated 8 CFM, at 19 dBA
- System activates automatically when needed
- Includes thermostatic controller

CFM	8
Depth	3.18"
Height	.64"
Primary Package Weight	.5 lbs
Volts AC	120V
Width	3.13"
Component Type	Active
Finish	Black
Package Count	1
Certifications	Greenguard; RoHS
