

## DM60 Mid-Size Tower Speaker

DYMEENSION DM60

SKU: 151127    UPC: 747192137137

The Definitive Technology Dymension DM60 Mid-Size Tower Speaker features four 4.5" mid/bass Balanced Double Surround System woofers to produce better midrange detail, custom aluminum oxide tweeters for explicit voice, and 3XR Architecture combining an integrated 8" subwoofer powered by a Class D 180W amplifier and two passive radiators. To get deep-bass performance, it has a Patented Intelligent Bass Control that blends subwoofer output with mids and highs. This speaker also has a Patented Linear Response Waveguide that extends off-axis dispersion for total sonic immersion. Fully balanced bipolar arrays of DM60 are adjusted to optimize for room placement and hold a rear-array attenuation switch for near-wall placement.

Pair this speaker with the DM20 Slim Center Channel Speaker and DM95 on-wall speakers (sold separately) to build an ultimate surround setup and deliver dynamic sound. Be it onscreen movie drama, melodies of your favorite singers, or hearing the sonic details while gaming, this high-performing speaker envelops you from every angle and transports you inside every scene and song. The consistent sound across Definitive Technology gives you the flexibility to mix and match Dymension, Dymension CI, and Mythos speakers, which can be voice-matched to design a complete home system.

### Features

- Fully balanced bipolar driver array for truly enveloping sound
- Built-in 180W 8" subwoofer with dual 3XR™ bass radiators
- Aluminum oxide tweeter produces crisp, sparkling highs
- 4.5" BDSS™ drivers provide balanced sound, and a wide listening area
- Atmos/DTS:X ready—add optional DM95 height module
- Patented Intelligent Bass Control for seamless integration
- Rear-array attenuation switch for near-wall placement
- Timbre-matched with other Definitive Technology speakers
- Foot spikes and pads allow versatile placement and leveling
- Understated design disappears into the room when the lights are low
