Outdoor Premium Tilt TV Wall Mount

VODLT1-B2

SKU: 142189 UPC: 793795538246

Sanus VODLT1-B2 Large Outdoor Premium Tilt TV Wall Mount. This outdoor-rated TV mount is rigorously tested and designed for any weather using corrosion-resistant coating and stainless-steel hardware and features easy adjustments to achieve the perfect viewing experience.

The VODLT1-B2 features the company's exclusive patented VirtualAxis Fingertip tilting technology, allowing for smooth, easy tilting motion by balancing the weight of the TV on itself. For the best picture, users can tilt the TV up or down with just the touch of a finger — no tools are required — thereby reducing glare and reflections caused by the sun. Once mounted, SANUS' ProSet adjustment feature provides quick and easy micro adjustments to height and level in order to obtain the perfect TV position. The mount boasts a slim profile, with the TV mounted 2.18in from the wall. For added security, users can add an optional padlock (not included) to lock the TV in the home position and prevent theft.

Features

- For 37in to 95in TVs
- Weatherproof design
- Corrosion-resistant coating
- Stainless steel hardware
- Patented VirtualAxis Fingertip tilting technology
