Era 100 Smart Speaker - Black

E10G1US1BLK

SKU: 159946 UPC: 840136805830

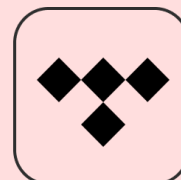

Featuring next-gen acoustics and new levels of connectivity, Era 100 transforms any room with the finely tuned stereo sound and rich bass music deserves. Place this speaker anywhere and everywhere. The compact design fits beautifully on any bookshelf, kitchen counter, desk, or nightstand.

With a tap in the Sonos app, Trueplay™ tuning technology analyzes the unique acoustics of the space and optimizes the speaker's EQ. So all content sounds just the way it should.

Deactivate voice assistants by tapping the speech bubble on top of the speaker. The light will also turn off. There is still access to other mic-enabled features, like Trueplay. Make sure no one accidentally activates the voice assistant by toggling off the switch on the back of the speaker. This disconnects all power to the microphone hardware for added security.

Features

- Voice Control with far-field mic array
- Stream audio over WiFi or Bluetooth
- Trueplay room tuning
- Touch controls
- Line in
