PowerG Wireless Mirror Optic PIR Motion Detector

PG9974P

SKU: 19777 UPC: 88030295

The PG9974P Wireless PowerG Mirror Optic PIR Motion detector is a vital component of a security system. Upon the detection of motion, the PG9974P communicates an alert to the security system. Additionally, the PG9974P provides immunity from pets weighing up to 40 kg (90 lb) to reduce false alarms. Using advanced technologies, the PG9974P provides reliability, robustness to interference, prolonged battery life, extended range and easy installation.

Feature

- Elegant yet robust design ideal for commercial applications and large residences
- Market-leading mirror optics offer exceptionally high detection sensitivity and immunity to false alarms
- Coverage area 49 ft. / 90o
- Vandal-resistant design through patented V-Slot technology
- Front and Back tamper protection
- Adaptive, Active Infra-Red Anti-masking technology
- Easy to install, with no vertical adjustments
- Pet-immune Target Specific Imaging distinguishes between humans and pets weighing up to 40 lbs.
- True Motion Recognition algorithm distinguishes between true motion of an intruder and any other disturbances, minimizing false alarms
- Compatible with PowerSeries Neo, PowerSeries Pro and Qolsys panels
