

IQ Encrypted Keyfob

QS1331-840

SKU: 23664 UPC: 85454500698

The IQ Fob gives you keychain access to your system. Using our proprietary S-Line encryption technology, encrypts signals sent to the IQ Panel while still providing backwards compatibility for legacy 319.5 systems. The IQ Fob is disguised to look like a standard car remote and allows you to activate or deactivate your system within 100 of the IQ Panel, and has the hidden feature of being able to activate an intrusion or "police panic" by pressing "lock and "unlock together for 3 seconds.

Feature

- Encrypted S-Line sensor technology protects signals sent to the IQ Panel while still providing support for legacy 319.5 systems
- Press "Lock button once to arm in "Stay mode
- Press "Lock button twice to arm in "Away mode
- Press "Unlock button to disarm system
- Up to 100 range
- Press "Lock and "Unlock simultaneously for 3 seconds to trigger emergency panic
