Tilt Sensor, Connect+ Compatible, Encrypted

RE606M

SKU: 140494 UPC: 810045000000

Alula RE606M Tilt Sensor, Connect+ Encrypted. This tilt Sensor features a new, high accuracy MEMS component which greatly increases sensor accuracy and reliability. The Tilt Sensor transmitter is typically used to monitor the change in tilt of overhead garage doors and windows. The alarm will trigger when the sensor is tilted more than 45 degrees.

Features

- Connect+ compatible
- Easy, peel-and-stick installation
- Industry-leading wireless range and battery life
- Encrypted wireless transmissions
- 10-15 year battery life
