

WiFi System AC1200 Router/Controller & Access Point

WS-80

SKU: 17650 UPC: 655003921021

The WS-80 wireless AP and router package includes everything you need to effortlessly and cost-effectively deploy a basic and reliable wireless network. The package includes one XWR-1200 dual-band wireless AC1200 router and one XAP-810 High-Power dual-band AC1200 access point. The XWR-1200 features high performance 2x2 MIMO technology and has a built-in wireless controller with Luxul's exclusive Roam Assist? capability. The low-profile, simple-to-install XAP-810 implements dual-band beamforming technology for delivering wireless coverage to smaller spaces.

The Luxul WS-80 comes with (1) XWR-1200 Wireless Router, (1) XAP-810, and (1) PoE injector.
