## All-in-One Smart Home 3-Switch Control

BHA120US-WH3

SKU: 26413    UPC: 855591000000

Implement all-in-one smart home control over Wi-Fi with the Smart Home 3-Switch Control (White) from Brilliant. Operational without a hub thanks to Wi-Fi connectivity, this device controls three lights and all smart devices connected to it for an integrated smart home solution. It features multiway switching control and light dimming via a mobile app or touch slider, and can integrate with select third-party smart home devices like thermostats, bulbs, smart locks, speakers, and more. The unit has a 720p 5" LCD touchscreen that can display photos, art, and weather forecasts. Video intercom functionality, with a privacy shutter, is provided by a built-in microphone and camera. Onboard sensors include motion, temperature, and ambient light. iOS and Android apps enable remote management.

### Features

- All-in-One Smart Home Controller
- Works with Incandescent/CFL/LED/Halogen
- Works with Dimmable Lighting
- Multiway Light Switching & Touch Slider
- 5" Diagonal LCD Touchscreen
- 2.4 GHz Wi-Fi Connectivity
- Motion/Temperature/Ambient Light Sensors
- Video Intercom with Privacy Shutter
- Remote Management via iOS & Android Apps
- Use with Alexa/Google Assistant/HomeKit
