PowerG Wireless Heat Detector

PG9936H

SKU: 145882

DSC Security PG9936H PowerG Wireless Heat Detector offers reliable, early fire detection for areas such as kitchens, attics, and garages where the installation of a smoke detector is not recommended. Temperatures exceeding 57°C (135°F) trigger the built-in 85 dB alarm, flash the LED light, and activate IQ Panel notifications and siren. Wireless security eliminates the need for wires, providing secure and reliable communication with an industry-leading range and encryption. Compatible with IQ Panel 2+, IQ Panel 4, IQ4 Hub, IQ4 NS.

Features

- Provides accurate early fire warning, with audio and visual alerts, when high temperature is detected
- Enhances safety and facilitates maintenance, with alerts for device tampering and low battery
- Offers long-lasting value with a 3-year battery life (with typical use)
- Large transmission range enables repeater-free installations
- Speeds up installations with visible link quality indicator on the device
- Simple wall or ceiling installation, with bracket
- Protected by a back tamper
- Compatible with IQ Panel 2+, IQ Panel 4, IQ4 Hub, IQ4 NS, IQ Pro

Dimensions	125 x 63mm (5 x 2.5in)
Battery Life	3 years (typical use)
Battery Type	3 AAA batteries (included)
Weight	243g (8.75oz)
Siren	Built-in 85db
Alarm Trigger Temperature	Exceed 57°C (135°F)
Sensing Technology	Thermistor-based sensing
Sensitivity Degradation	Audio and visual indicators notifying when cleaning or replacement of the detector is required
Installation Locations	Wall or Ceiling installation, with bracket
Operating Temperature	4.4°C to 37.8°C (40°F to 100°F)
Operating Environment	Indoors
Approvals	FCC, UL, CSFM (for PGx936)
