SONOS

Amp Class D 125W Wireless Amplifier

AMPG1US1BLK

SKU: 159929   UPC: 878269007104

Amp features a built-in state-of-the-art digital amplifier that can power large or small speakers so listeners can enjoy superior audio in any room.

Power entertainment with the versatile Sonos Amp. As a member of the Sonos sound system, the Amp easily connects to other Sonos equipment, speakers, turntable, or TV. The compact design allows the Amp to blend in with any home or stack in a rack.

Features

- Class-D digital amplifier
    - 125Watt per Channel at 8 ohms
- Upgrade Wired Systems
    - Connect everything from a turntable and stereo to wired speakers to play vinyl, CDs, stored audio files, and streaming services throughout the property. You can even power outdoor speakers and expand the Sonos system to the backyard.
- Optimum Control
    - Designed with the custom-install space in mind, Sonos offers drivers for today's leading brands, including Control4, Lutron, Elan, Logitech, and more. Look for the Works with Sonos badge to verify compatibility.
- Line-In Sources Supported
    - Audio device with analog RCA output or optical output (optical adaptor required). TV device with HDMI ARC or optical output (optical adaptor required).
- Subwoofer output
    - Auto-detecting RCA type, user-adjustable 50-110 Hz crossover
- Speaker output connections
    - Banana plugs (2) capable of stereo or dual mono sound.
- Ethernet ports
    - Dual Ethernet ports can connect Amp to a wired home network and allow for connection of additional Sonos players
- Apple AirPlay 2
    - Works with AirPlay 2 on Apple devices iOS 11.4 and higher
- Keeps it Cool
    - The rack-mountable design features an advanced heatsink for optimized airflow and heat management.
- Home Theater Audio Formats
    - Stereo PCM, Dolby Digital, DTS Digital Surround* (*This is not an indication of a licensed decoder.) The Sonos app's Now Playing screen will display what type of audio is being decoded.

KOA

Customize the sound system

Amp packs 125 watts per channel, so you can easily power outdoor speakers and listen at higher volumes with clear, undistorted sound. Connect everything from passive speakers and TV to CD player and turntable, then add Sonos speakers around the home for multiroom listening.
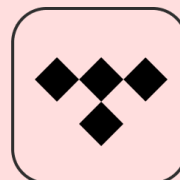

Amplify the home theater

Listeners enjoy stereo sound for shows, movies, and video games when you connect Amp to the speakers and TV. Then wirelessly add a pair of Sonos surrounds for even more immersive entertainment.

KOA

Special connections

Custom threaded standard-diameter banana plugs blend in and support high-quality performance.

Control it all with the app
