# WiiM

Music Streamer with High-performance DAC and Voice Remote

PRO PLUS

SKU: 156204     UPC: 60258180607

## Music Streamer Redefined

The WiiM Pro Plus lets you add high-res streaming to pretty much any sound system. Its high-performance DAC circuitry delivers rich, detailed sound that rivals streamers costing several times more, so you can get the best out of music services like Qobuz, TIDAL, Spotify, and more.

It can also be part of a multi-room music system that allows you to add digital and analog sources — like a turntable — with ease, thanks to its analog input and analog-to-digital (ADC) chip. And it all fits into an unobtrusive, compact component that you can place almost anywhere.

Features

- High-performance AKM 4493SEQ VELVETSOUND DAC with up to 32-bit/384kHz decoding
- Control with free WiiM Home app for Apple and Android devices
    - play music from Qobuz, Amazon Music, TIDAL, Deezer, TuneIn, iHeartRadio and more
    - control and group with other WiiM devices (sold separately) on your network
- Supports Spotify Connect and TIDAL Connect for streaming from within those apps
- Supports Apple AirPlay 2 and Chromecast built-in
- Two-way Bluetooth can wirelessly receive audio from compatible devices and send audio to compatible headphones and speakers
- Works with Amazon Alexa, Siri (Apple), and Google Assistant-compatible devices (sold separately)
    - built-in mic accepts Amazon Alexa commands
- Works as a Roon player (requires subscription and Roon Core running on your network)
    - Roon Core is media server software that runs on your computer, NAS drive, or other compatible hardware
- Built-in dual-band Wi-Fi 5 (802.11ac)
- Front-panel volume and playback touch controls
- Rear-panel mic for ensuring multi-room synchronization
- Remote control included
    - volume and playback control
    - four presets — one touch starts your favorite playlists
    - built-in mic accepts Alexa voice commands

### All your content in one app

WiiM supports many popular music streaming services in the WiiM Home app with more to come. Or connect to your NAS or local files to stream your favorite music.

## Turn any audio gear smart

WiiM Pro Plus is an audiophile-grade music streamer with AirPlay 2, Chromecast, DLNA, Spotify Connect, TIDAL Connect, Alexa Cast, Roon Ready, and multiroom audio. WiiM Pro Plus turns your existing stereo system into smart, so you can play all your favorite music from your music service App, the WiiM App, or your voice using Alexa, Google Voice, or Siri all in the highest possible sound fidelity.
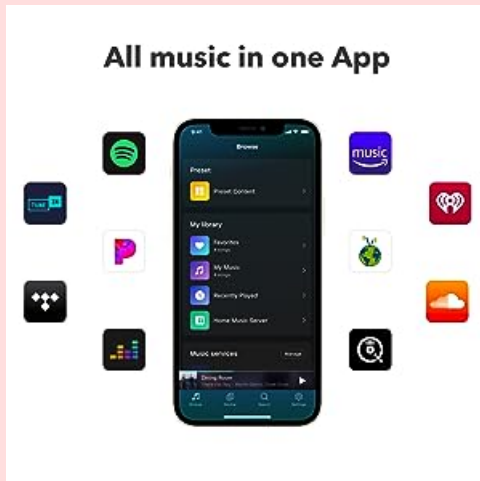

## Play music everywhere with multi-room audio

Easily build your multiroom sound system with your existing AirPlay 2 speakers, Amazon Echo, and Google Home devices. Using your legacy audio devices, you can create a more flexible multiroom sound system with multiple WiiM Pro Plus, WiiM Pros, WiiM Minis, or Linkplay-powered devices. WiiM Pro supports multiroom from various audio source inputs, including WiFi, BT, Aux, and SPDIF input, making it versatile with almost every music listening option.

## All music in one App

It's more convenient than ever to control your music and device in one place. With the WiiM Home app, easily browse all your favorite music without jumping to other music apps. Amazon Music, iHeartRadio, TIDAL, TuneIn, Napster, Deezer, and Qobuz are all integrated into the WiiM Home app. You can also control the device EQ, set music alarms, and create personalized routines using the WiiM Home app.

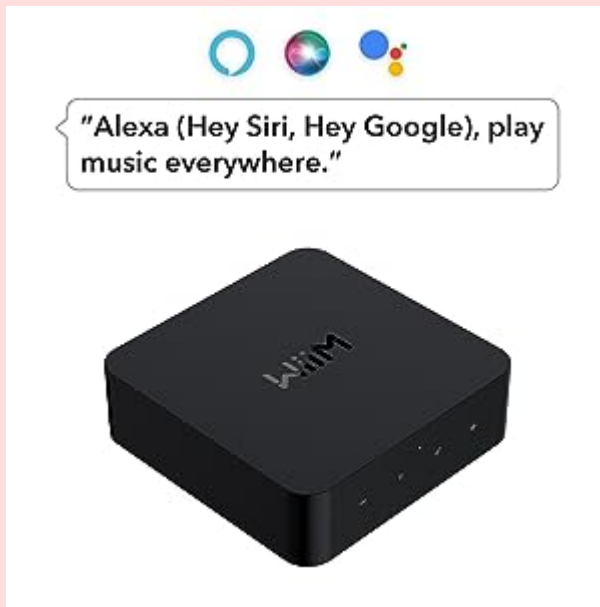

## AirPlay 2

WiiM Pro Plus turns your stereo into an AirPlay 2-enabled receiver. Stream your favorite music from your iOS and Mac devices or stream TV audio from Apple TV. Use Siri on your phone or HomePod to control music selection, volume, and playback. WiiM Pro Plus is an easy and affordable way to connect your Apple devices to your favorite audio equipment at home.

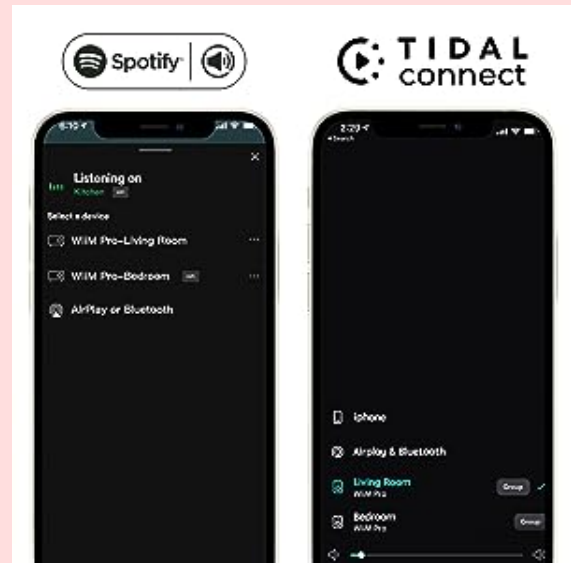

**KOA**

## Works with Voice

Ask Alexa, Siri or Google Voice to control your WiiM Pro Plus to play music, listen to news, or your favorite podcast with voice assistants in your phone, HomePod, Echo, or Google Home devices. Automate WiiM Pro with other smart home devices by creating routines in the Alexa App, Apple Home, or Google Home App.

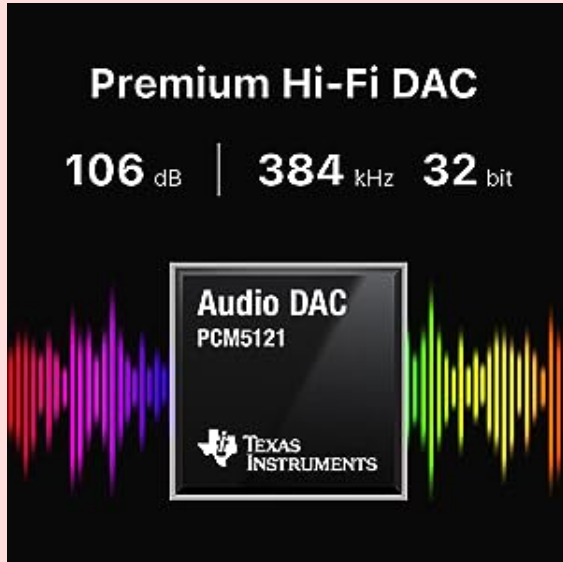

## Spotify Connect and TIDAL Connect

Use your Spotify or TIDAL app as your remote control for WiiM Pro Plus and stream directly from these services. WiiM Pro Plus provides higher audio quality and longer operational work range longer than traditional Bluetooth or AirPlay 2 receivers and frees your mobile device for other tasks. Spotify works for both Spotify Free and Premium users. TIDAL works for both HiFi and Master Quality.

## Premium Hi-Fi DAC

WiiM Pro Plus features a high-precision, low-jitter Burr-Brown PCM5121 DAC and supports up to 384 kHz/32-bit audio with 106 dB SNR. With a much larger bandwidth and more reliable connection provided by dual-band Wi-Fi than Bluetooth, WiiM Pro Plus is a true Hi-Res streaming DAC device.

## 10-band graphic EQ and 26 preset EQ

Twenty-six preset EQ gives you various choices to meet your specific listening needs. The preset EQ includes EQ choices from music genres, bass/treble adjustment, loudness, movie, gaming or speech enhancement etc. You can also customize your own with the 10-band graphic EQ for your room or taste.
