

eero

Max 7 Tri-Band Mesh WiFi 7 Router

V011111

SKU: 151409    UPC: 840268956318

Wi-Fi 7 technology can provide more than twice the speed of Wi-Fi 6, so you can enjoy lower latency, greater capacity, and more efficiency on your network. With two 10 GbE ports, you can enjoy wired speeds up to 9.4 Gbps, wireless speeds up to 4.3 Gbps, and multi-gigabit backhaul speeds—making your network seriously fast. One eero Max 7 supports 200+ devices and provides up to 2,500 sq. ft. of coverage.

With world-class encryption and security protocols, eero systems are compatible with the strongest security protocols available in consumer wifi today. eero's patented TrueMesh networking technology optimizes its performance based on your network layout, connected devices, and overall network usage. This results in fast speeds, efficient coverage, and a reliable connection.

#### Features

- Experience wired network speeds up to 9.4 Gbps and wireless network speeds up to 4.3 Gbps
- eero's first device with Wi-Fi 7 technology can provide more than twice the speed of Wi-Fi 6
- Supports 200+ connected devices and provides up to 7,500 sq. ft. of coverage
- Backward-compatible with previous-generation eero devices
