MAX 8" Round In-Ceiling Speaker

DC-80 Max

SKU: 153097 UPC: 747192140571

The Dymension CI™ MAX Series, Definitive Technology's premier installed speaker line, leverages our most advanced acoustic innovations in discreet, adjustable in-ceiling and in-wall speakers. Dymension CI MAX in-ceiling speakers deliver precise sound for high-performance home theater and whole-home systems, with features like our patented pivoting woofer, flush-mount design, and robust weather protection. The series includes the Dymension CI DC-80 MAX SUR, an in-ceiling surround speaker that delivers expansive overhead sound in even the largest spaces.

Features

- Effortless, toolless installation; pre-construction brackets available
- Audiophile-quality sound in in-ceiling speakers
- Two speaker sizes for flexibility in power and placement
- DC-80 MAX SUR for expansive overhead surround sound
- Advanced crossover optimizes drivers for balanced sound
- Pivoting tweeters aim highs wherever you want them
- Patented pivoting BDSS™ woofer directs rich sound anywhere
- Tailor sound with a three-way high-frequency adjustment switch
- Low-profile, borderless design vanishes into any room
- Acoustically transparent paintable microperforated grille
- CI Series is IP55-rated for use outdoors and in high-humidity spaces
- Timbre-matched with Dymension™ and Mythos® speakers
