

## Wi-Fi 6 AX3600 4x4 Multi-Gig Access Point

AP-3064

SKU: 157132    UPC: 65500392369

The AP-3064 provides 802.11ax Wi-Fi 6 network capabilities, ideal for networks requiring greater device traffic capacity, higher data transfer speeds, and broader coverage with lower latency. Four dual-band antennas produce a high-powered signal to maximize signal strength across the network and a 2.5 GbE connection ensures greater data transfer capabilities.

### Features

- 4x4 concurrent dual-band wireless
- Concurrent 2.4GHz and 5GHz with beamforming
- Flexible mounting plate design for easy precision install
- 2.5 Gbps RJ45 PoE+ LAN port (30W)
- VLAN support for creating a secure guest network
- Captive Portal / Walled Garden capable
- Free Network Design Service
- 4x4 Mu-MIMO Output
- WPA2, WPA3 Network Security Protocols
- OFDMA Network Access Control
- Target Wake Time – More efficient use of device battery
- Three-year limited warranty
- Free Lifetime Support including US-based phone support
- LED status light
