Sony BRAVIA 3 LED 4K HDR Google TV (2024).

Triluminos Pro™ reproduces over a billion of them with enhanced saturation and hue for natural shades.

Watch old favorites in close to 4K quality. Our 4K X-Reality™ PRO analyzes, cleans and refines images using our unique 4K database so the viewer can indulge in stunning pictures from virtually any content.

Enhanced clearness and smoothness when watching fast-moving action. Motionflow XR increases the number of images seen every second for smoother motion while controlling LED backlighting and reducing image blur for clearer pictures.

Whether day or night, the viewer will always get the best possible picture. A light sensor optimizes brightness to room conditions, boosting brightness in light rooms and reducing it in dark ones.
