Learning Thermostat (4th Gen) with Nest Temperature Sensor (2nd Gen)

GA05560-US

SKU: 159130 UPC: 193575038506

The big, borderless display with Dynamic Farsight shows you useful info you can see from across the room. You can choose the design, a clock, the temp, weather, and more. System Health Monitor helps make sure your heating and cooling system is running smoothly. It helps catch many issues early. And can send an alert if something needs attention. Smart ventilation brings in fresh air from outside when air quality is healthy and the temperature is mildest, helping your home save energy. Energy Shift from Nest Renew can automatically shift your energy use to cleaner or cheaper times.

Features

- The Nest Learning Thermostat works with any Nest Temperature Sensor. Put the included 2nd gen sensor in any room to help manage hot and cold spots
- Adaptive Eco helps find an energy-saving temperature, based on the temperature outside. So you save when you're away, and come back to a comfy home
- Your thermostat learns how the temperature outside affects the temperature inside, and pauses your system to help you save
- Smart Schedule learns the temps you like, and when you like them. It suggests tweaks to help you save, and you can accept them in the Google Home app
- Control your Nest Learning Thermostat (4th gen) and your other compatible smart home devices in the Google Home app
- System Health Monitor helps catch many issues early. And if something needs attention, it can send an alert
- When it's time to change your air filter, you'll get an alert based on actual use.⁴ And you'll get seasonal maintenance reminders
- To save energy, smart ventilation brings in fresh air when outdoor air quality is healthy and most efficient, like when temps are mildest
- The Nest Learning Thermostat is Matter-enabled. So you can use your favorite smart home app to control the temperature
- Don't want to get up from the couch? Just change the temp with your voice
