Temperature Sensor (2nd gen) - Porcelain

GA05552-US

SKU: 159131 UPC: 193575038704

Meet the Nest Temperature Sensor (2nd gen). Now it's easy to manage hot and cold spots throughout your home. Just put it in your preferred room and get the right temp, right where you want it. It's battery powered, so you can set it, then forget it's even there.

Features

- The Nest Temperature Sensor (2nd gen) is simple to set up in the Google Home app
- The battery lasts up to 3 years, so you can put it on a wall, shelf, or wherever you want
- Put the Nest Temperature Sensor (2nd gen) in any room, then set the temperature it should reach at a certain time of day in the app
- You can put temperature sensors in up to six rooms. Prioritize the temperature of one room, or create an average temperature across them
- Sleek and simple, the Nest Temperature Sensor (2nd gen) fits right in wherever you place it
- The Nest Temperature Sensor works with the Nest Learning Thermostat (4th gen), Nest Learning Thermostat (3rd gen), and Nest Thermostat E
