## Outdoor 7 Mesh WiFi Router

SN11111

SKU: 160209    UPC: 840268974862

eero Outdoor 7 extends your eero network so you can stay connected, whether you're on the patio or in the treehouse. eero Outdoor 7's durable design has been weather tested (IP66) for year-round reliability. Tested to operate between -40°F and 131°F. With an IP66 rating for protection from dust, rain, and snow, eero Outdoor 7 can safely remain outdoors all year round. Together, eero, Wi-Fi 7 technology, and Qualcomm's radio chipset deliver wireless speeds up to 2.1 Gbps, so your customers can scroll, surf, swipe, and stream outside. Each eero Outdoor 7 provides up to 15,000 sq. ft. of coverage.

You can power directly from an indoor PoE+ switch. Wirelessly extend your eero network with two eero Outdoor 7s spaced up to 1,000 feet apart with a clear line of sight between them. Our patented TrueMesh software, combined with TrueRoam and TrueChannel, proactively keeps you connected to the optimal and most reliable wifi connection possible. eero Outdoor 7 is ready to help deliver an unparalleled customer experience beyond your walls. Backward compatible with all previous generations of eero, and it gets even better with automatic updates.
