

SONOS

Sub Wireless Subwoofer (Gen 4) - White

SUBG4US1

SKU: 160232 UPC: 840136812791

Sub 4 unlocks the full power of Sonos sound. Pair this subwoofer with your Sonos soundbar or speaker for pulse-pounding bass that immerses you even deeper in movies, TV, and music. Updated with a matte finish, the iconic design features dual force-canceling woofers that virtually eliminate distortion.

Features

- Pulse-pounding bass: Dual Sonos-engineered drivers generate deep, dynamic low frequencies. The ported enclosure enhances the bass response so you feel every beat, roar, and rumble in your chest.
- Transform your home theater experience: Pair Sub 4 with Sonos Arc Ultra, Arc, or Beam for dramatically deeper bass and clearer highs that draw you deeper into movies, shows, and games.
- Bring your music to life: Hear the nuance in every note and enjoy a greater sense of spaciousness when you pair Sub 4 with Sonos Five, Era 300, or Era 100.
- No buzz or rattle: The acoustic architecture creates a force-canceling effect that virtually eliminates distortion.
- Perfectly tuned for the room: Trueplay optimizes the sound for the unique acoustics of the room and placement of your speakers.
- Iconic design: With its elegant sculptural shape and updated matte finish, Sub 4 is designed to look great in your home and to match your Sonos speakers.
- Plug and play: Simply plug in the power cable and open the Sonos app to add Sub 4 to your system.
- Place it where and how you want: Sub 4 reliably connects to your Sonos soundbar or speaker over WiFi so you can place it anywhere in the room even on its side and under your sofa.
- Double the drama: Pair two with Arc Ultra or Arc for bass so deep and sound so immersive, you'll forget you're at home and not in an actual theater.
- Toned down impact: Sub 4 uses fewer materials and is more energy efficient than previous generations.
- Upgraded technology: With increased processing power, memory, and new WiFi radios, Sub 4 is the most advanced Sonos subwoofer to date.
