## 42 Space Enclosed Rack w/ Active Cooling

ER42.2

SKU: 160781    UPC: 819932011431

Introducing the RACK ER42 42 Space Enclosed Rack with Active Cooling, the ultimate solution for housing and protecting your valuable audio, video, and networking equipment. Designed with meticulous attention to detail, this rack offers a secure and organized storage space while ensuring optimal performance through its built-in active cooling system.

The ER42 features a spacious 42-space enclosure, providing ample room to accommodate a wide range of equipment, from servers and amplifiers to switches and patch panels. Its sturdy construction, crafted from high-quality materials, guarantees long-lasting durability, protecting your gear from potential damage or unauthorized access.

One of the standout features of the ER42 is its integrated active cooling system. Equipped with strategically placed fans, this rack effectively dissipates heat generated by your equipment, preventing overheating and ensuring optimal performance. The active cooling system operates quietly, maintaining a suitable temperature for your sensitive devices without causing distractions or disturbances.
