

High Power 6-Way Stereo Speaker Switch with Protection

K-1043

SKU: 2168

Karbon A/V High Power 6 Way Stereo Speaker Switch with Protection K-1043.

Features

- Switch between 6 pairs of stereo speakers
 - Black Metal Housing
 - Push Spring Terminals
 - High Power Push Button Switch
 - Built-in Impedance & Overload protection
-
- Audio power handling 100 watts / channel.
 - Frequency response ± 0.1 dB, 20Hz ~ 20kHz.
 - Channel separation (@ 1K Hz) 38dB normal 33dB limited.
 - Crosstalk between function (@ 1K Hz) 50dB normal, 45dB limited.
 - Note: 1. The generator impedance should be 50 ohm.
 - Signal output reading is taken across a 47K ohm load.
 - Product Input 8 ohm terminated.
 - Switch type self-locking push switch.
 - Switch rating AC 250V / 4A.
 - Switch life 10,000 cycles.
 - Wiring requirements wire size 14AWG ~ 22AWG.
 - Protection type manual, resistor protection.
 - Impedance chart for all possible combinations of 8 ohm speakers.
