

1U/2 Slot Low-Profile Rack Mount for NetworkHD

NHD-140-RACK-1U

SKU: 20544

1U/2 Slot Rack Mount for NetworkHD NHD-140-TX

NHD-140-RACK-1U

The NHD-140-RACK-1U is a 1U rack mount that provides a clean installation for up to 2 NetworkHD 100 Series NHD-140-TX quad encoders. The minimal rack unit height and compact mounting arrangement allows a very high NetworkHD 100 Series encoder density designed for space restricted deployments. The robust and thermally optimized design helps keep your centralized NetworkHD solution perfectly organized.

IDEAL HEAT DISSIPATION

Horizontal slot installation supports up to 2 NHD-140-TX NetworkHD 100 Series Quad Encoders in a space-saving side-by-side arrangement, providing ideal component heat dissipation and airflow - a key factor in increasing reliability and product lifespan.

WE SHIP COMPLETE

All device mounting hardware is provided in the kit. The NHD-140-RACK-1U includes integrated EIA-310-D 19 inch rack rail compatible mounting ears, NHD-140-TX mounting brackets and screws.

ALL STEEL DESIGN

Strong, steel enclosure construction keeps hardware secure and protected with units secured via brackets for zero movement and flex whilst matching the chassis finish, colour and style of the mounted NetworkHD devices to maintain a professional and unified appearance.

STREAMLINE YOUR INSTALL

Specifically designed for organizing NetworkHD components within the main rack location, the NHD-140-RACK-1U de-clutters the rack, improving cable management, port identification and unit access.
