

## 24Gbps 4-Core Active Optical HDMI Cable - 15M

CAB-HAOC-15

SKU: 20605

The WyreStorm HAOC is a next generation HDMI cable designed for the next generation of 4K and 5K HDR content. It offers a unique feature set in both delivering uncompressed HDMI content at up to 24Gbps and compatibility with emerging HDMI technologies such as ALLM (Auto Low Latency Mode) & VRR (Variable Refresh Rate) using the latest in optical transmission technology. Now established as the most powerful form of HDMI extension, WyreStorm active optical cables offer the best of both worlds: pixel-perfect long distance transmission of content and native HDMI communication, thanks to their ability to be a passive communication technology compared to normal HDBaseT extenders that often terminate the HDMI signal prior to transmission.

### Features

- Uncompressed optical transmission of 18Gbps HDMI content at 4K/60 4:4:4 or HDR at 60Hz available in 10m, 15m and 20m lengths
- Compatible with latest HDR standards including HLG, HDR-10+ and Dolby Vision
- Perfect for use in environments with excessive EM or RF interference
- High quality aluminum construction with low-profile 20mm/0.79 head
- ARC and CEC enabled for true native HDMI communication
- Supports HDCP 2.2 content encryption
- Supplied coiled on spool for easy installation
- CL3 and FT4 certified
