Specifications provides an easy and secure connection between your speaker wire and your banana-compatible speakers, receiver, or amplifier. It fits 12- to 24-gauge speaker wire. The lever-lock banana connection strip back your wire, twist the strands together, insert into the connector, and snap the lever down for a secure connection. 24k gold-plated contacts resist corrosion. Warranty: limited lifetime. MFR # SSBP24. Speaker Snap Banana Plugs: The Speaker Snap banana plug make it easy to connect your speaker wire and plug in your components. The Speaker Snap banana plug features a tool-free design with a snap lever and fits 12 to 24 AWG speaker wire. Gold-plated banana plug connectors are used for excellent signal transfer and resistance to corrosion. Open the snap lever on the Speaker Snap banana plug. Then, strip your wire a 1/4" and insert into the Speaker Snap banana plug. Now, snap the lever of the Speaker Snap banana plug with the wire inserted to firmly secure the wire in place. Finally, plug the Speaker Snap banana plug into your speakers, AV receiver, integrated amplifier, or wall-plate. Notes: Speaker Snap Banana Plugs are available in a 1 Pair (2-Pack), 2 Pair (4-Pack), 4 Pair (8-Pack), 6 Pair (12-Pack), 12 Pair (24-Pack), 25 Pair (50-Pack), and 50 Pair (100-Pack).
