

48-Port Blank Keystone Patch Panels

BPPWM-48

SKU: 145872 UPC: 812130000000

2U 48-PORT Blank Patch panels are an ideal solution for covering from Unshielded or U/UTP to shielded or F/UTP applications. Panels are designed to protect critical data from EMI (electromagnetic interference) and RFI (radio frequency interference).

This makes them ideal for use in health care, industrial manufacturing, and other environments industries where EMI and RFI may be present.

Features

- Shielding protects against EMI/RFI and provides data security
- Panels can also be used for U/UTP applications
- Panels feature stainless-steel plates with grounding wires and rear cable
- Configurable with Wavenet's HDJ Series CAT6 keystone jacks
- Backward compatible with CAT5 E and CAT6 structured cabling systems
- Available in 1U, 24-Port and 2-U,48-Port

Standards & Compliance

- ANSI/TIA -568.2-D
- IEC 60603-7
- ISO/IEC 11801
- UL LISTED
