## 6.5" Single Point Stereo Speaker

IC-610T

SKU: 22389    UPC: 612935000000

The IC-610T is a single-point stereo speaker (one speaker that can reproduce both left and right channels of a stereo signal) and is designed for spaces where stereo speaker placement is difficult or impractical. Perfect for hallways, small rooms, walk-in closets, etc, the IC-610T is the ideal speaker whenever you can't easily place separate left and right channel speakers. With separate inputs for both the left and right audio channels, dual tweeters, and a dual voice-coil woofer, the IC-610T is easy to install, easy to connect, and is an excellent option for improving sound quality without needing to install multiple stereo speakers.

### Features

- Designed for small rooms, hallways, or anywhere that stereo speaker placement is difficult or impractical.
- Pin-Cushion, EasyGrip design for one-handed install
- Single point stereo with dual tweeter and dual voice-coil woofer
- Paintable edgeless grilles blend seamlessly into any Dacor
- Powerful neodymium grille magnets for easy and secure attachment
