

6.5" Premium In-Wall Speaker

265-RT

SKU: 23815 UPC: 747192000000

Vanishing Series 265-RT in-wall 3-way speakers with paintable grilles offer full-range, dynamic audio without visible speaker boxes. Superior controls and the patented Power Port® bass venting system guarantee spectacular sound in any room environment. Build a complete high-performance audio system that always delivers and never distracts with these low-key loudspeakers. The unique, wafer-thin grille is magnetically secured to deliver nearly transparent, ultra-small perfs and dynamic, unimpeded sound. Patented bass venting design smoothly transitions air flow, eliminating turbulence and distortion, for deeper, more efficient bass impact. Compatible with Polk Audio RTi speakers for seamless blending between traditional and built-in speaker systems. Lower tweeter levels offset reflective surfaces, cutting the level in the exact 4-5kHz band where reflectivity destroys sound quality. Crossover adjustments flatten response bumps caused by nearby walls, reducing boominess for more lifelike sound from any position. Compatible with Polk Audio RTi speakers for seamless blending between traditional and built-in speaker systems. Perfect Fit templates, a precision flange, available pre-construction brackets, and the patented Rotating Cam system ensure secure, vibration-free installation.

Features

- Full-range dynamic audio from a low-profile speaker designed for a flush fit with your wall
- Silk dome tweeters set in a 15° swivel housing provide direct high-frequency control, excellent off-axis imaging, and more placement flexibility
- Innovative features and patented Polk Audio technology in a discrete, easy-to-install package
- Timbre-matched to the RTA Series
