

## 4-Channel 5A CCTV Power Supply

K9572

SKU: 3711

Karbon A/V 4CH CCTV Power Supply K9572: This 12V DC CCTV power supply unit covers up to four cameras at once. If you are using a DVR and 4 cameras, this unit will give you one place to plug in all 4 cameras independently instead of using an individual power supply for each camera. It supports cameras that need 700mA of power each.

### Features

- Support Four 4K cameras working at the same time
- Independent Power Supply for each channel
- Support Din-Rail installation
- With 1 indicator led light at the power output
- Strong anti-interference capability
