

## Z" Series Bracket

E-941S300R/ZQ

SKU: 27340    UPC: 676544000000

### Seco-Larm Z" Series Bracket E-941S300R/ZQ

Includes one "Z" bracket and one "L" bracket for mounting on inswing doors. The "Z" bracket consists of two parts and is adjustable for flexible positioning of the armature plate. Also includes cover plate to hide mounting screws.

For mounting the SECO-LARM electromagnetic lock, the lock might require the addition of the E-941S300R/ZQ Z Bracket. Depending on the location, door swinging direction, and type of door and frame, the Z bracket will be exactly what you need to complete your magnetic lock installation. The E-941S300R/ZQ bracket mounts the 1200 pounds Series Maglocks. The item includes a cover plate to hide the mounting screws.

#### Features

- "Z" bracket and one "L" bracket for mounting on in-swing doors
- The "Z" bracket consists of two parts and is adjustable for flexible positioning of the armature plate
