AC Adapter 24V

PS-AC2440

SKU: 3712

High voltage protection: when high voltage occurs, the surge protection will be hit through to protect the connected device. Over Current protection: when over current occurs, the power supply will automatically switch to self-protection status, when the condition is removed, then switch back to normal.

Features

- AC Adapter 24V 40W
- Universal AC Input Range.
- Convection Cooled Operation.
- Utilizes 105,,f Long-life Electrolytic Capacitors.
- Short/Over Voltage/Over Current/Over Temp Protection.
- MAX-20~40,,f Operating Temperature.

Specifications: AC Adapter PS-AC2440 Model: PS-D40 Input: 120V~60Hz Output: AC24V 40W
