

Wireless Heat Detector with Rate of Rise

GEM-HEAT

SKU: 144576 UPC: 785026000000

Napco GEM-HEAT Wireless Heat Detector with Rate of Rise

The GEM-HEAT is a high-quality 135F (57C) Fixed temperature detector with Rate of Rise. It is compatible with the NAPCO Express and Gemini series GEM-RECV Series supervised security receivers..

The GEM-HEAT incorporates circuitry which will transmit an alarm signal upon an alarm condition, generate an hourly supervisory test signal to the receiver and also monitor and annunciate low battery.

Coding switches are not required or used in the GEM-HEAT. Each transmitter is assigned a unique identification code number at the factory. The transmitter is powered by one 3V Lithium battery (supplied) which can power the unit for up to two years. If the battery voltage drops below normal, a low-battery report will be sent to the receiver with any status or alarm transmission. If a low-battery condition is indicated, replace the battery

Features

- High-quality 135F (57C) fixed temperature detector with rate of rise
- Reliable, crystal-controlled wireless technology
- Long-life, replaceable lithium batteries
- For use with all Gemini Panels and Wireless Receivers

Details

Item	Rate/Rise Heat Detector
Color	White
Includes	Mounting Plate
Features	Wireless
For Use With	Gemini Panels
Product Type	Rate/Rise Heat Detector
