## Sony 32 Class W830K 720p HD LED HDR TV with Google TV (2022) KD-32W830K

- Enjoy TV in crystal-clear 720p HD resolution
- See natural and precise picture quality with a wide array of colors and High Dynamic Range (HDR) contrast.
- Discover picture quality full of rich, real-world detail and texture, powered by X-Reality PRO.

### Brilliant highlights, beautiful textures

This Sony BRAVIA TV brings you the excitement of movies and games in vividly detailed HDR. It handles a variety of HDR formats, including HDR10 and Hybrid Log-Gamma.

### Rediscover every detail

See pictures full of vivid detail and texture on this TV. X-Reality PRO upscales every pixel for exceptional clarity, analysing frames and matching each scene with our unique database to refine images and reduce noise.

### Pure, natural sound without compromise

Clear Phase technology analyses physical speaker response and compares it to the original audio signal, across a range of frequencies. This data is used to cancel out any peaks or dips in the speaker's natural response to give pure, natural audio with smooth, even reproduction of all frequencies.

### Watch what you love, control it with your voice

Your TV is now more helpful than ever. Use your voice remote to easily find your favorite movies, shows, and music. Ask Google to find a specific title, search by genre, or get personalized recommendations on what to watch by saying, "what should I watch?". Even get answers on screen, control smart home devices, and more. <sup>1</sup>

### Renew, recycle and reduce, designed for the environment

Our BRAVIA TVs are not only designed for an immersive viewing experience but also with the environment in mind. We are committed to protecting the environment in the production of our TVs. Display Off Mode helps save energy by turning the picture display off without putting the TV into full stand-by mode when just listening to audio.
