Cat6A Solid Bare Copper UTP Riser 1000'
Box - Blue

K3443

SKU: 157745

The CAT.6A cable with SKU K3443 is designed with 23AWG solid bare copper and includes a cross filler for enhanced stability and signal performance. This high-performance cable is ideal for data, video, and audio transmission, providing excellent EMI protection due to its overall metal shielding. It complies with IEEE standards, including 802.3an 10GBASE-T, making it suitable for both legacy and high-speed networks.

Features

- Cat6A 802.3an Cable
 - 10GBASE-T
 - 23AWG solid bare copper
 - Polyolefin (PO), with color coding for easy installation
-
- **Conductor Material:** 23AWG solid bare copper
 - **Insulation Material:** Polyolefin (PO), with color coding for easy installation
 - Blue & white/blue stripe
 - Orange & white/orange stripe
 - Green & white/green stripe
 - Brown & white/brown stripe
 - **Jacket Material:** Flame-retardant polyvinyl chloride (FRPVC)
 - **Outer Diameter:** 7.0 ± 0.2 mm
 - **Operating Temperature Range:** -20°C to 75°C
 - **Maximum Pulling Tension:** 110 N
 - **Flame Test:** UL 1666 (CMR)
 - **Standards Compliance:** ANSI/TIA-568.2-D (2018), ISO/IEC 11801-1, and others
