

Extended Range Exterior Cell Antenna for Most Brands

SLE-ANTEXT75

SKU: 144287 UPC: 785026000000

StarLink XT SLE-ANTEX optional marine-grade antennae extend cellular transmission & enable location flexibility with StarLink & most other radio brands, eg, Honeywell, DSC, DMP. Max. performance, omnidirectional wideband antenna for all cell techy's, excellent LTE performance @ 700 MHz.

Features

- Increase Cellular Transmission & Mounting Flexibility
- Universal use with StarLink Cellular Communicators & those of other top brands, Honeywell, DSC, DMP, etc.
- For Outdoor Use - Marine Grade
- Excellent 700MHz LTE performance
- All Applications: LTE, , 3G, CLR, PCS, DCS, AWS, IMT, ISM, WCDMA, cellular, WiFi and WiMax
- VSWR <1.5:1 for max power and signal range
- RoHS Compliant
- Complete: Including Mounting Hardware & 75™ cable Low-loss cable with premium connectors & mounting hardware included L Bracket with U-bolts for up to 2" pole

Specifications Radiation Pattern: Omni-Directional Gain: 4-9dBi Bandwidth: VSWR: <1.5: 1 = 695-3000 MHz in all 3G & 4G Bands Bandwidth: VSWR: <2.0: 1 = 695-3000 MHz Impedance: 50 ohms Max Input Power: 50 watts Exterior Finish: Black or white UV stable Dimensions: 8 7/8" (225 mm) l x 2 3/8" (60 mm) od Weight: Varies with the model, cable length chosen RF Connector: Type N female PIM: 155dBc Cable: Low-loss cable with premium connectors & mounting hardware Installation: Included L Bracket with U-bolts for up to 2" pole Elements: Copper Polarization: Vertical Wind Rating: >110 MPH Warranty: 3 years Compliance: RoHS
