

## Fiber Optic Pen Cleaner

TL-PCLEAN-LC

SKU: 23390    UPC: 816927000000

Do you have intermittent signal dropouts? Did you accidentally let that patch cable hit the floor while dressing up your equipment rack? How good was that hamburger at lunch? You might need to clean up the ends of your fiber before you install it into your gear. But, if you already installed it, the device will still help you get out of that jam. The TL-PCLEAN-LC is an innovative design of the traditional fiber end-face cleaner, using a special dust-free clean wire material with full contact cleaning, different types of oil and debris can be cleaned at one time. This pen cleaner can be used to clean LC and MU connectors, including the female fiber ports.

### Features

- Cleans LC and MU style fiber connectors and ports
- Cleans male and female ends >800 cleaning cycles
- Remove the protective cap.
- Push the pen tip onto the fiber cable end or into the fiber cable port.
- Replace the protective cap.
- VoilÃ !
