

BLUESOUND

IR Remote Control

RC1

SKU: 110116 UPC: 786357000000

The RC1 is designed with functionality in mind. The most used and most-needed functions are the most accessible. Every feature has been thought through in detail. With the IR codes now built-in to BluOS the RC1 will work right out of the box. Just ensure the Player is on the latest firmware, insert the included 3V CR2032 coin-cell batteries and start listening. Pulse Flex owners that love the 5 preset buttons on the top of their Player will be glad to see the RC1 has quick access to 10 presets.

Features

- Simple, ergonomic design with streamlined and dedicated Player controls.
- Works right out of the box with built-in IR codes for Bluesound Players.
- Program up to 10 presets to listen to your favorite music with a single touch.
- Supported on Bluesound Gen 2 and Gen 2i Players running BluOS 3.6.2 or later.
- Use one remote for all your players, or dedicate one for each room.

Compatibility Supported Players *Only supported on Bluesound Gen 2 and Gen 2i Players running BluOS 3.6.2 or later.
