

CCTV Video Balun with Power
Transmission

T552

SKU: 13683

Karbon Cables: Video Balun With Power Transmission, Packed in Pair T552: This video balun transmitter receiver pair will allow you to send video, power, and data all over one CAT5e/CAT6 cable. Makes installation of pan tilt zoom cameras very easy.

Features

- Allows you use to use CAT5E or CAT6 Cable with your Pan Tilt Zoom Security Cameras instead of Coax Cable
- Transmit or Receive real-time color or B&W video signals with power
- Balun adapters allow for video transmission over longer distances than coax cable will let you
- No power required for the balun itself
- Exceptional interference rejection
