

9-Channel 10A CCTV Wall Mount Power Supply

K9570 9

SKU: 3709

Karbon A/V CCTV Power Supply Box - 9 Port K9570 9

Thermal Cutoffs Protection (TCO): each output has independent PTC fuse and LED indicator, when problem occurs, only affect the independent output, other outputs still working.

Short circuit protection: when short condition occurs, independent PTC fuse will open the circuit, when condition removed, PTC fuse will automatically back to close.

High voltage protection: when high voltage occurs, the surge protection will be hit through to protect the connected device.

Over Current protection: when over current occurs, the power supply will automatically switch to self-protection status, when condition removed, then switch back to normal.

Features

- Input voltage: AC100-120V / AC220-240V, Output voltage: DC 12V, 9 channel output.
- The maximum output is 5Amp, the total DC voltage can be adjusted by 10%, and the load capacity is good. 110V and 220V self-adaptation, no need to change the input voltage.
- Good insulation and high electrical strength. With short circuit, overload, overvoltage, protection function.
- Individual LED indicator for each output, every channel is protected with replaceable glass tube fuses. Please Note: this power supply without socket and power cord.
- This power supply is suitable for CCTV camera, security system, light strip, the security guard, the monitor etc.

Specifications: Input Voltage 100-240V AC, Auto Switch Input Voltage Frequency 50/60Hz Output Voltage 12V DC $\pm 5\%$ Total Output Current 10A Total Outputs 9/18 Fuse Type PTC (Resettable) Never need to replace. Fuse Rating 1.25A/2A
