

## Assure Lock Push Button Deadbolt - Bright Brass

YRD216-CBA-605

SKU: 17414    UPC: 81023049030

The polished brass Real Living Assure Lock Push-Button Deadbolt with Connected by August from Yale offers a secure alternative to the standard deadbolt lock. With this keyless deadbolt, you won't have to worry about lost keys or picked locks. Thanks to unique passcodes, you'll be able to assign entry access to family, friends, and guests. The backlit push-button keypad enables you and authorized users to unlock your door. One-touch locking allows you to lock this device with a simple tap. Four AA batteries are included for operation.

Bundled with the keyless lock is a Connected by August kit. The kit includes a Connected by August module, a Wi-Fi bridge, and the DoorSense sensor. The Wi-Fi bridge enables you to lock and unlock the keyless deadbolt from anywhere via the August app for iOS and Android. The DoorSense sensor lets you know whether your door is locked, unlocked, open, or closed. Alexa, Google Assistant, and Siri voice control are all supported by Connected by August.

### Features

- Can be installed on a standard door in minutes with just a screwdriver
- Seamlessly integrates with your home automation or alarm system via an optional Yale Network Module (available separately in Z-Wave Plus, Zigbee, and iM1 for HomeKit compatibility)
