

10" In-Wall / In-Ceiling Subwoofer

IWS-10

SKU: 62694

The IWS-10 subwoofer driver employs a rigid, flat 10 surface of 10mm (3/8) RDT® material derived from Monitor audio's acclaimed Platinum™ series of high-end speakers. A large vented pole helps to move air quickly, reducing power compression and increasing heat dissipation.

Features

- Rigid Die-cast chassis/basket
- Large vented pole design to reduce power compression, lower distortion and improved power handling
- High tech RDT flat sandwich™ cone technology
- High quality gold plated push™ type terminal for easy installation
- 8 ohm impedance
- 50mm diameter voice coil with black anodised former Improves convection cooling effects
- +/- 10mm of excursion results in controlled bass at low frequencies and delivers high SPL
- Patented Tri-Grip fixing system
- Trim-less, low profile, paintable grille
