Outdoor Mic Level Microphone

SS-705

SKU: 59994 UPC: 860002000000

The SS-705 is an outdoor rated mic level microphone with an omni-directional pickup pattern of approximately 12 feet. Housed in a weather resistant enclosure, the SS-705 is suitable for outdoor applications or harsh environments.

The SS-705 does not require external power and is compatible with select IP cameras featuring a mic level audio input. The microphone includes 40 feet of cable with a 3.5mm plug. The cable may be connected through either the top or rear of the enclosure via 3/4" threaded conduit.

The audio stream can be used for alarm verification purposes or evidence collection when reviewing a security event.

Features

- Omni-directional pickup pattern
- No external power needed
- Compatible with select IP cameras
- Includes 40' of cable
