

## 12 Channel Multi-Room Power Amplifier

D1290

SKU: 152104    UPC: 612935000000

Russound's D-Series of amplifiers are synonymous with premium performance, reliability, and durability, forming the backbone of professional audio installations around the world. The newest generation builds upon the legacy of these prestigious products.

Each of these models is designed to expand an audio system into more rooms or areas or to add increased audio output for larger rooms or outdoor areas where a higher output volume is required.

These amplifiers pack a punch with up to 90 watts per channel on the D1290, these models utilize an advanced digital design which results in smaller chassis sizes than in any previous generation of Russound amplifiers. The D1290 is only a single rack-unit in height..Being able to reduce the size of the amplifiers was a key goal of the new design, but Russound didn't want to reduce any features and even wanted to add more than we've ever offered in the past.

The new D1290 does just that by adding a new, easily configurable option to custom tailor the audio output for the desired application, from powering traditional speakers, to driving passive subwoofers added to any area of the home, indoors and out.

These new amplifiers give installers the flexibility and reliability they need to satisfy the needs of their clientele, all while keeping an acceptable project budget. And they deliver the high-quality audio performance that their customers expect.

### Features

- 12-Channels @ 90W
- Class D Amplification
- Thermal Fan Cooling
- High Dynamic Range
- Slim 1U Chasis
- Source Flexibility
- Easy to Configure Audio Filter Options: Full Range Sound, Low Pass Filter & High Pass Filter
- Control Flexibility: Always On, Signal Sensing & 12V Trigger
- Rack mountable

Specifications  
 Features & specs  
 General  
 Number of Channels 12  
 Power Output per Channel (8 ohms) 45  
 Power Output per Channel (6 ohms) ---  
 Power Output per Channel (4 ohms) 90  
 Frequency Bandwidth 1k  
 THD ---  
 Minimum Impedance 4  
 Bridged Power per Channel 180 watts  
 Speaker Outputs 12  
 THX Certification No  
 Width (inches) 17-1/8  
 Height (inches) 1-3/4  
 Depth (inches) 9-3/4  
 Weight 9 pounds  
 Parts Warranty 2 Years  
 Labor Warranty 2 Years  
 Inputs & Outputs  
 Number of Inputs ---  
 Input Type ---  
 Removable Power Cord IEC 3-prong  
 Level Controls ---  
 Speaker Connectors ---
