

48-Port Loaded Cat5E Patch Panel

K3408

SKU: 2939

Karbon A/V CAT5E 48 Ports Patch Panel K3408 provides a 100MHz connection to 48 xGigabit RJ-45 Ethernet ports. This 10-inch patch panel is well suited for both home or SMB applications. Organize connections with the available writing surface above each port, allowing users to label respective connections. This compact 48-port patch panel also includes an 89D wall mount bracket for vertical or horizontal installations. The snap-in style wall mount bracket design provides quick and easy access to cable connections when needed for installation or troubleshooting.
