

Belt Driven Turntable

C 588

SKU: 145703

A solid, sophisticated turntable

Our customers have raved about NAD's C 558, so I was excited to see what upgrades were made for the C 588. Notably, the renowned electronics giant added metal feet with tuned vibration isolation to further stabilize the base. The turntable's high-quality carbon fiber tonearm features a factory-installed Ortofon 2M Red cartridge that brings beautiful music out of every record groove. This turntable is a beauty that will look and sound amazing in any vinyl lover's listening room

Features

- heavy glass platter with felt mat provides excellent speed stability
- 9" high-grade carbon fiber tonearm
- includes factory-installed Ortofon 2M Red moving magnet cartridge
- isolated DC synchronous motor for reduced vibration and superior speed stability
