## 200 Series 6.5" 2-Way In-Wall Speaker

IW 206 FG

SKU: 23961    UPC: 1016279

Drawing from the award-winning industrial design of the Jamo Custom 400 Series, the IW 206 FG espouses high-performance audio with high design, while the flat magnetic paintable grille allows it to disappear completely into its environment. It's a powerful speaker, recommended for larger living areas or rooms where you really want to turn up the volume. The IW 206 FG features a 6.5" Injected Molded Graphite woofer for exceptionally low-frequency response with incredibly low distortion. A 1" Polymer Soft Dome tweeter reproduces mid and high frequencies with precision, detail, and clarity without harshness at high volumes. The IW 206 FG in-ceiling loudspeaker is packed with high-performance features: By utilizing modern design and core technologies, Jamo has once again revolutionized the custom-installation speaker market with audiophile-grade performance at unparalleled price points.

### Features

- DTT (Decoupled Tweeter Technology) to eliminate unwanted vibration that colors sound
- HCC (Hard Conical Cone) technology for clear, detailed sound with virtually no distortion
- Pivot tweeter for user-customizable directivity and limitless placement options
- Tweeter bridge for complete ease of install and maximum baffle rigidity
- A paintable magnetic grille that attaches quickly and blends invisibly in any room.
