## RG59 Male BNC Twist-On Connector

K3167

SKU: 2907

Karbon A/V RG59 BNC Male Twist-on Connector K3167.

This RG59 BNC twist-on connector is a male type. BNC twist on connectors attach to RG-59 coaxial cable without any special tools. They simply twist on by hand, however, the cable must first be properly stripped and cut. The connectors can be used in CCTV camera and other video cabling applications.

### Features

- Nickel-plated brass/zinc construction
- No special tools required
- Suitable for video and headend applications
- Connects an RG-59, RG6 coaxial cable to a BNC connection port
- Gold plated contact pin reduces signal loss

Specifications: Fits RG59, RG6 Male 75 ohm Twist-on Nickel-plated connector Gold-plated pin
