

Indoor Stereo Volume Control 100 Watts

FG01652

SKU: 23253

Niles Audio VCS100K | FG01652

Niles volume controls deliver sound to your speakers without getting in the way of the music. While lesser components add pops, clicks and static, Niles brings you pure enjoyment. Their premium-quality parts and construction ensure high-fidelity sound with amplifiers rated at up to 100 watts per channel of continuous power.

These in-wall stereo volume controls offer intuitive operation for your multi-room audio system. The high-power, impedance-magnifying design lets you safely connect as many as eight controls and eight pairs of speakers to a typical receiver or amplifier without installing a speaker selector or any other type of protection device.

Features

- Power handling: 100 watts per channel RMS; 200 watts peak
- Selectable impedance magnifying: 1X, 2X, 4X, 8X
- 12 step control, 54 dB maximum attenuation
- Removable screwless connectors accommodate up to 14-gauge wire
- Pop-free switching between all steps
- Removable knob and Decora® snap-in color inserts for quick and easy color changes
- Recommended for use with Niles VCS HUB8 speaker distribution hub
- UL listed to comply with local building codes

Specifications: Dimensions: 1-5/8" wide x 2-5/8" high x 2-9/16" deep Requires 1-gang electrical box at least 3" deep Mounting Depth Of Only 2-9/16". Fits Into Standard 18-cubic-inch One-gang Junction Boxes. Power Handling: 100W/channel RMS. Frequency Response: 20Hz To 20kHz \pm 2dB. May Be Used With 4-, 6-, Or 8-ohm Speaker Systems. Installation Requires Only A Screwdriver And Wire Stripper.
